Role: Public Relations (PR)

Duration: 2025 – 2026

Submitted to:

Faculty Advisor of the Club

TESLA TRIBE

Faculty Name: Dr Tarkeshwar Mahto

TESLA TRIBE CLUB REPORT

AP24110040009

1. Introduction

This report outlines my contributions as a Public Relations (PR) member in Tesla Tribe, where I actively supported the planning, promotion, and documentation of technical events and projects conducted by the club.

2. Key Responsibilities

In my role as PR I was responsible for:

Managing the club's online presence, especially on LinkedIn

Promoting events before, during, and after execution

Creating awareness and increasing student engagement

Documenting all major activities and ensuring consistent communication of updates

3. Contributions to Major Events

3.1 OPAL-RT Workshop (5 Days) [14/03/26-18/03/26]

During the 5-day OPAL-RT workshop, I contributed by:

Promoting the workshop through social media platform.

Posting regular updates, highlights throughout the event

Showcasing participant engagement and project work

Ensuring the workshop reached a wide beyond the participants

TESLA TRIBE CLUB REPORT

3.2 DSP Controllers Workshop (2 Days)

For the DSP Controllers workshop, my contributions included:

Designing and publishing pre-event content

Covering the event through updates and post-event summaries

Highlighting key technical aspects to make content informative

4. Contribution to Ongoing Project

As part of the club's major project I actively contributed as a team member in the initial stages of development. The work completed so far includes:

Participated in team discussions to finalize the concept and design of a small-scale 4-wheeler prototype Collaborated with team members after division into specialized groups for efficient workflow. Identified and listed all required components for the prototype, including mechanical and electrical parts. Contributed to estimating and budgeting the components required for the project

5. Conclusion

My role as a PR member allowed me to actively contribute to both the promotional and documentation aspects of Tesla Tribe. Not only as a PR member but also as a member of the tesla tribe club we started to do hands on project of a mini prototype.
